SALIXIUM HIGHLIGHTS

Top Reasons To Choose SALIXIUM

AUTO-SYNC WITH MYSEJAHTERA
Every test result is automatically synchronized with MySejahtera app for further reporting to MOH.

TRACK & TRACE
The intelligently designed mySALIXIUM app allows every single test result to be tracked and traced accurately to ensure end-to-end traceability stemming from manufacturing site to end user and automatic reporting to Ministry of Health Malaysia.

FRIENDLY NOTIFICATION
mySALIXIUM app is smart and friendly to notify user the next course of action immediately upon completion of each test.

RESULT VALIDATION
Every single test cassette of SALIXIUM test kit is printed with a unique QR code for accurate and irreplicable result generation.
With the two-factor authentication technology using unique QR code and mySALIXIUM app, the end user unable to replicate or manipulate the test result using the same test cassette even without the presence of medical professional to validate the test result.

ENHANCE DETECTION RATE COMPARING TO JUST SALIVA SAMPLE ALONE
Self-collected saliva swab or nasal swab alone may miss certain detection of viral load. Combining both nasal and saliva swab samples have advantage to increase detection rate.

UNIQUE QR CODE AUTHENTICATION
Every single box of SALIXIUM test kit is affixed with distinctive "Halvec Verified" holographic QR code sticker that is printed with unique QR code to enable user to authenticate the product via mySALIXIUM app.
